

CAPA 2022 - Posters

Information Poster Walks:

Posters can be hung up on the Poster walls placed in the back of the Plenary room from Sunday evening.

Every poster has a number, last column. Please match your poster number with the same number on the Poster wall.

Posters from 1-9, marked yellow will be presented on Wednesday, and number 10-18, marked grey, on Thursday.

During the poster walk the author is supposed to be at his/her poster and present/answer questions from the other participants.

Because of the high number of participants, 135, there will not be single poster presentations of 3 minutes, but the participants will walk around and discuss with the poster author.

Author	Title	Topic	Nr.	
Lina Homman	Mental health experiences and associated factors amongst children with and without disabilities	Participation interventions, Individual and system level approaches	1	Wednesday
